Subject: 9th group of photos Black Tea Oil Drilling Sites

This is the 9th group of photos for Black Tea Oil Drilling Sites. Photo 62 was taken to mark the location of an ongoing oil drilling location that appears to be in a tributary (possibly including abutting wetlands) of the Smoky Hill River. Later follow found this site is also a Black Tea Oil drilling location. The other photographs are of a proposed drilling location in the Smoky Hill River channel (and abutting wetlands). The surveyors and parked bulldozer were in the adjacent uplands.
